muhammedroufan@gmail.com
Malappuram, Kerala

Profile

Experienced Front-End Developer with 4 years of expertise in building dynamic, responsive, and high-performance web applications. Proficient in React.js and Next.js, with a strong understanding of modern UI/UX principles, component-based architecture, and state management (Redux, Context API). Additionally skilled in Laravel for backend development, API integration, and database management, enabling full-stack capabilities. Adept at working in agile environments, collaborating with cross-functional teams, and delivering scalable solutions.

Education

BCA Jul 2017 – May 2020	Grace Valley College of Arts & Science, Kadampuzha Calicut University
-----------------------------------	--

Experience

Oct 2022 - Mar 2025	Senior Front End Developer at Aventus Informatics As a Front End Developer at Aventus Informatics, I contributed to building dynamic and user-friendly interfaces using JavaScript, Git, HTML5, React, Next.js, CSS, and Bootstrap. By collaborating with cross-functional teams, I transformed design concepts into fully responsive web applications, delivering seamless experiences across various devices.
Mar 2021 - Oct 2022	Full Stack Developer at HowinCloud As a Full Stack Developer at HowinCloud, I developed and maintained web applications using React.js for the front end and Laravel for the back end. My responsibilities included building responsive user interfaces, developing and integrating RESTful APIs, implementing authentication, and managing databases with MySQL. I focused on performance optimization, cross-browser compatibility, and mobile responsiveness while collaborating with designers and teams in an agile environment. Utilizing Git for version control, I contributed to delivering efficient, user-friendly applications that enhanced performance and user experience.

Skills

- React JS
 - Next.js
 - Laravel
 - SQL
 - Javascript
 - ES6
 - Redux
- JQuery
 - CSS
 - Bootstrap & MUI
 - SCSS
 - Firebase
 - Git
 - Web Socket

Projects

ERP Management

Developing scalable ERP solutions using React.js for enhanced user experience and efficiency.

Ecommerce Development

Building feature-rich ecommerce platforms with React.js, integrating secure payment gateways and dynamic user interfaces.

Healthcare Solutions

Expertise in healthcare applications with React.js, ensuring compliance and data security.

Museum Management

Designing interactive museum management systems with React.js for collections, visitor management, and ticketing

Community Management

Developing robust community engagement platforms with React.js.

Exam Preparation

Creating responsive and user-friendly educational platforms using React.js.

HR Portal

Building modern HR systems with React.js for employee management, payroll, and recruitment.
